Welcome To Ox Valley

It has taken all of the Garriott clan working together a period of fifteen years to reach the place in the Shorthorn business where we can have a sale of good, proven, producing cattle and still have a strong herd left. We believe these cattle will continue to produce for their new owners as they have for us. There are more than thirty cows with calves at foot selling, plus show heifers as well as our best young bulls.

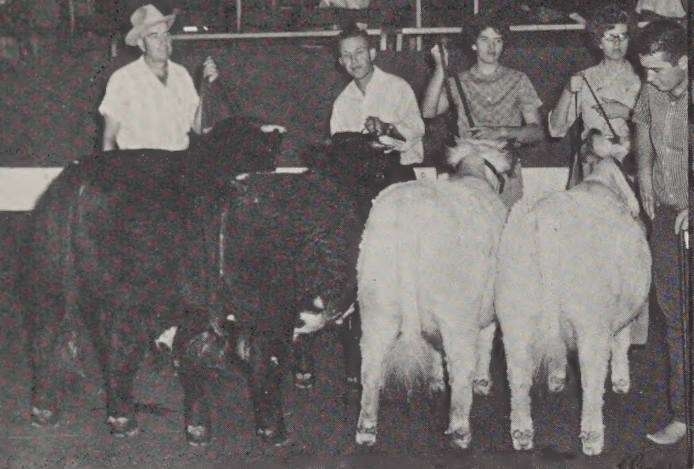

We hope that you will plan to join us on Friday afternoon, September 12, for a leisurely inspection of the sale cattle and cow herds. We invite you to be our guests that evening for a T-bone steak dinner at the house that Shorthorns built.

The Garriott Tribe

Plan to join the Garriott family for a steak dinner and social hour on the lawn of the house that Shorthorns built, Friday evening September 12, 1969. You are all welcome.

NAME HAS The Nation's Sale Rings

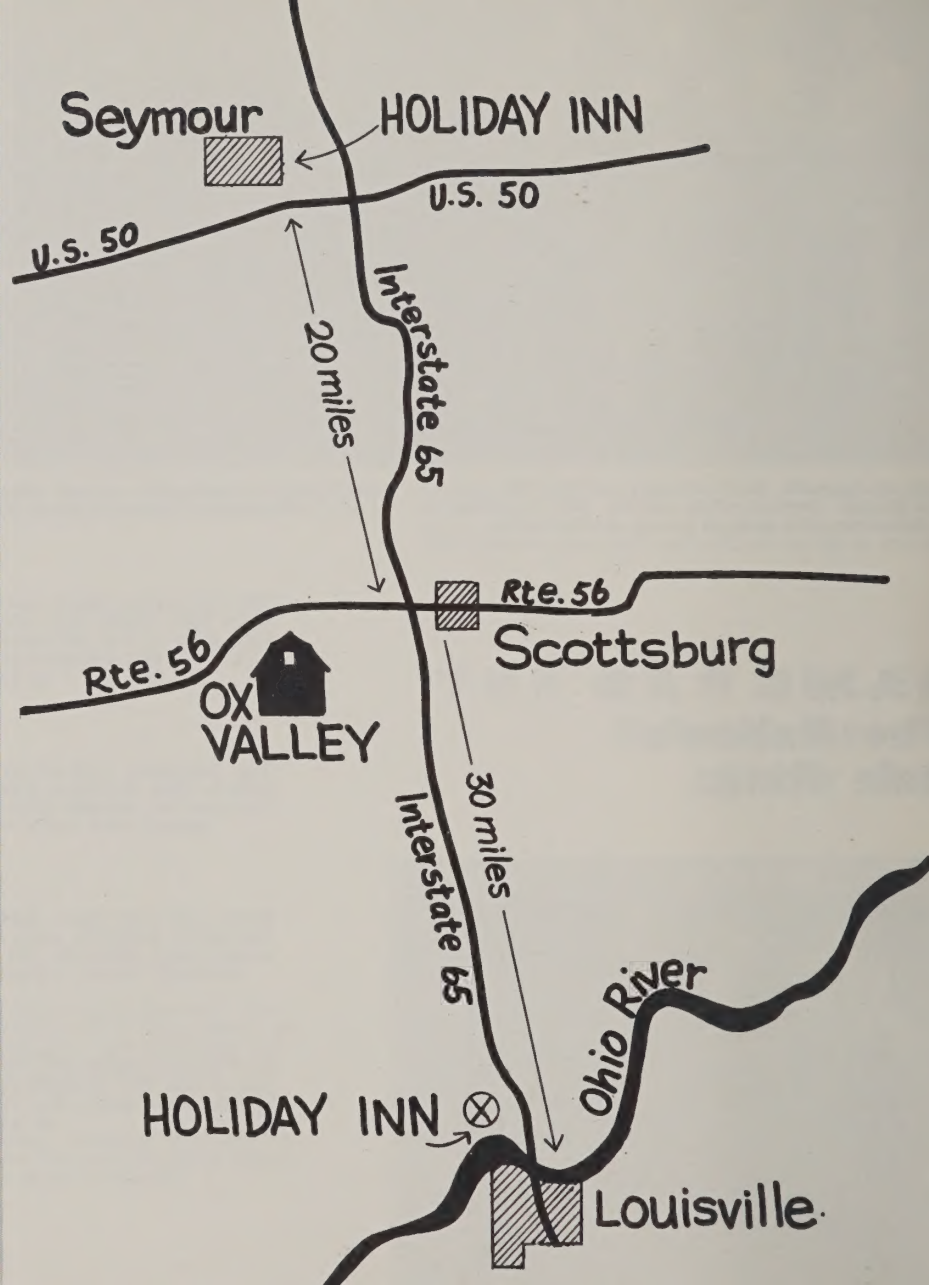

It is a pleasure for me to be associated with the Garriott family in promoting and putting on this sale, not only because they are great people to work with but the cattle selling are truly the kind that cattlemen enjoy working with. Ox Valley has always had a great amount of repeat sales, for example, Greenbriar Shorthorn Farms, La Center, Kentucky, make it a point each year to add one or two females from The Valley, or Roy Bunting, Ellery, Illinois, who has purchased five bulls in the last 10 years. These many repeat customers return each year because they know their Ox Valley cattle make money for them.

This is an Opportunity Sale. Visitors to the farm come away talking about the uniformity and quality of the Louada Rodney females. Eighteen of them sell in this sale, not in a culling effort, but because Dave insists on selling the kind of cattle that his customers want. When he said, "We are opening the gate to share our herd with you," that's exactly what he meant.

There is something for everybody in this sale. Whether you are looking for that just right bull, cows and calves, bred heifers, heifers for club projects, or a steer calf for the shows next year, it's all here because the Garriotts want you to come and find what you are seeking when you get here.

Do plan to be at the sale Saturday, September 13, and if at all possible Friday evening, September 12, at the Garriott home for the steak dinner and social hour.

Sincerely,
GENE McDONALD, Sale Mgr.

WIB DONALDSON TALKS ABOUT THE OX VALLEY STOCK BULLS

Dave Garriott is one who has always stressed the importance of a stock bull and has followed that thinking in his search for bulls.

Louada Rodney was a bull that did a great job for him. Rodney was, of course, by Constructor and out of the great Louada Roth's Fragrance, a daughter of Calrossie Armada. She was a cow with great femininity and style and walked effortlessly. She produced four full brothers and all of them bred well. Also, she produced daughters that have proved to be good bull breeders. Louada Invincible, doing such a good job for E. R. Hoyt; Louada Roxton, stock bull for John Allen in Pennsylvania and champion of the Pennsylvania Farm show last January; Louada Taurus, junior stock bull for Parke Franklin is also out of a daughter; Louada Ransom, stock bull for London Bros., in Wisconsin is out of another daughter of the old Roth's Fragrance cow. Prepotency was almost a sure thing when a cow like Louada Roth's Fragrance was mated to Bapton Constructor. **Louada Fingerprint**, a son of Louada Piroch and out of Blood Royal 36th, she by Bapton Constructor, was another bull Dave used with success. His dam was full sister to Louada Bomber and sold at a good price to the Mains Farm in Washington. Louada Piroch was one of the good sons of Bapton Constructor and out of a Calrossie-bred cow of the good Princess Royal family.

Then came **Louada Enterprise** and **Louada Roth's Scout**. Enterprise was another Blood Royal and was sired by Denend Constellation. His dam is Blood Royal 22nd, purchased in our 1967 June sale by Fred Coates in Missouri. She was sired by Kinellar Royal Robin and was out of a full sister to Louada Bonaparte that sold

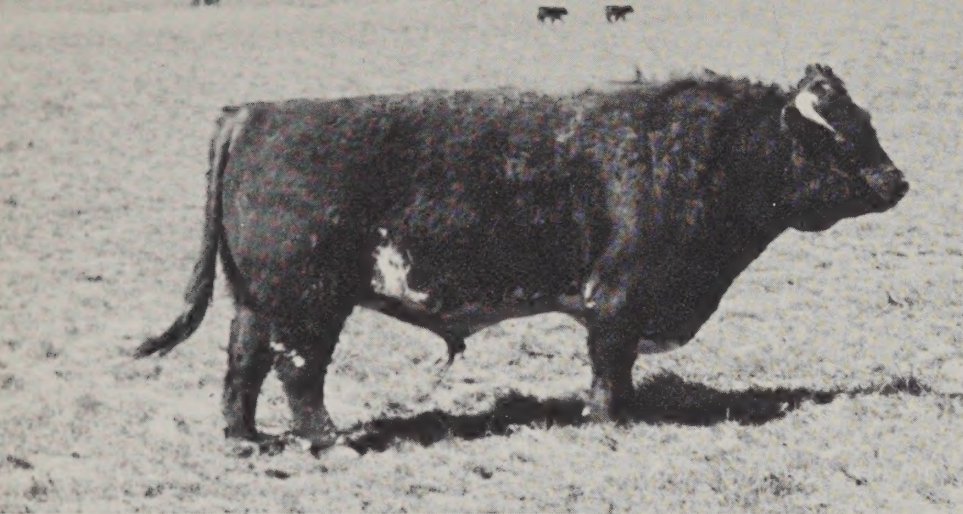

**W. W. Donaldson, Louada Manor
Farms, Peterborough, Ontario.**

to Argentina for \$30,000. Louada Bonaparte was the sire of Louada Roth's King.

Louada Roth's Scout by M S U Wonder 5th is proving a great success. The bloodlines behind him seemed to blend wonderfully well as proven by the way he is breeding. Roth's Scout is out of the same dam as Louada Roth's King; Louada Ringleader that is doing so well in the Cardey herd in California; and Louada Roth's Prince that Bill Anderson used successfully.

This program indicates that Dave is not just producing out-cross cattle which have probably less than a 50% chance of improving the cattle to which they are mated, but he is producing cattle that should have the prepotency to improve and upgrade the herds for the purchasers.

LOUADA RODNEY

LOUADA RODNEY — Purchased in the 1959 Louada sale for \$6,500. This investment is undoubtedly the best we ever made. His calves have done exceptionally well for us wherever shown or sold. They have won every championship possible at the Indiana state fair. His daughters have been the strength of the herd. His grandsons and granddaughters breed true to their heritage. Louada Rodney is a full brother to Louada Regalia, Browns of Kentucky, and Louada Lochinvar, Scofield Ranch, Austin, Texas. 18 daughters sell.

FLYING G COMMAND

Maclyn Ambassador, the sire of Flying G Command, the cover bull from the 1965 Herd Bull Number of The Shorthorn World, purchased in dam in a Louada sale where his cost \$5,000.

FLYING G COMMAND — I found this bull at Flying G Ranch in Georgia running with 100 cows and knew immediately my search for a big, modern bull was over. Maclyn Ambassador was on the cover of The Shorthorn World Herd Bull issue. Many say he was the best son of Constructor. His dam brings in the stamina of the strong wheatland western cattle.

STANDARD GUARANTEE

Recommended by American Shorthorn Association

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
- F. All animals catalogued have been tested for T.B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.
